MIDDLEBURY COLLEGE

WAR SERVICE HONOR ROLL

OCTOBER 8, 1918

It has become increasingly difficult for the Committee to secure correct addresses of the men in service. The College quota is continually increasing. Nearly one half, recorded in the following list of 324 names, are at the front or somewhere on the seas, and changes of location are not as easily forwarded to us as when in training camps in our own country. Nor do the men always remember to remind us of their movements. Sometimes the new address is sent to the home but not forwarded to us. The military nomenclature is puzzling to the civilian and an address is not infrequently sent us incorrectly quoted. For such reasons as these it is quite probable that there are errors in the present record.

It is requested of men in service, and especially is it asked of homes interested to which this bulletin may come, that evident errors be quickly reported to us. Failure on your part to do this may result in the missending of letters and consequent disappointment on the part of soldiers and sailors who are always eagerly desirous of keeping in touch with home and College interests.
